

I feel I belong in the Huntington School. I feel I belong there because I've been there for five years now and I have a lot of experience here and I have made a lot of friends and a lot of nice teachers that help me when I feel sad like Ms. O'Brien, Mrs. Costa, and Mr. Molinari. Yes, there are some bad memories but there are more good memories. The best thing is the kind teachers. I feel I belong here because I met a lot of people. I should look up to like Mr. Church, Mr. Benson, and Mr. Molinari. Another reason is because this is where my favorite teachers are. And that's why I feel like I belong here.

Anthony Camacho

The place that I feel I am supposed to be is my neighborhood. The reason why I am supposed to be there because my family, friends, uncle, and aunts live here. They are always by my side and I really love them. They would never leave my side. If I leave my family and school, my heart and myself would always remember my family, friends, and my teacher, Miss O'Brien. I always get to be with them. They are always going to be my friend and my family no matter what happens. If I am dead or if I am alive or if I leave them, they will always be in my heart. They would always protect me. They would never do anything to hurt me. I love my family because they never leave my side. They are what makes my neighborhood a special place.

Anthony Jenkins

Hi and good morning fellow listeners. If you want to know my favorite place, keep reading and you'll find out. My favorite place is Framingham. I like Framingham because I have lots of family out there. I can visit them whenever I want to visit. I have a lot of friends that love it when I visit them.

There are friendly people and lots of places to play. Oh my, but you surely do have to watch out for dog poop. There are some amazing places to eat. The food is fully cooked. You won't find that at any other place. There are lots of pretty houses that anyone would want to live in.

When I am there, I can see most of my family members. My sisters, brothers, mom, aunts, cousins and uncles. Family makes it feel special. That is where I belong.

Asere Coren

Have you ever been to the Big Apple? I have. It is called the Big Apple because it is big and juicy. When I go to New York I always have lots of fun. They have my favorite shop, the American Girl Store. They often have free concerts like Miley Cyrus and the Jonas Brothers.

The reasons why I feel like I belong there is because I get excited when I see my grandma. I go to lots of wonderful restaurants with grandma. We always do fun things like bowling, shopping, and go to tv shows like channel 4. I can't wait to see her this month. We are going to visit Rockerfella Center and go ice skating with my cousins.

New York City has the greatest sites. I went to the largest buildings. It is called the Empire State Building. Then, I took the ferry to see the Statue of Liberty. They have the biggest Toy's R Us. It has a massive ferris wheel inside it.

New York is a place I feel like I belong because I see my grandma and cousins and all of these great sites.

Aurelia Jenkins-Portal

Have you ever lived in Boston? I have, I was born there and moved to Brockton when I was two. I lived near the Fenway. It was cool because we always watched the baseball games out our window and on tv. Every Friday night, I would have trouble sleeping because I hear motorcycles, cars, and music because most people go to the club on Friday. On the weekend my parents and brother would always take me out to the park but in Brockton there is no more bug park like in Boston. I really want to move back but if we do I will miss all my friends. Sometimes, I wish that Brockton could move to Boston. If we move back we will throw a big party and invite everyone.

Breana Thibodeaux

Beep, Beep!! I feel like in Brockton, because I feel appreciated in what I do. Everyone is nice too in the neighborhood because we always treat each other with respect and that makes me feel like those kind people. I feel like I was born here, because I've lived here for about five years. It makes me feel that it is my favorite city. I love it. Brockton makes me feel like it's a wonderful place it is amazing. I like Brockton, because it makes me feel like it is the best city in the world.

Brian Romano

Have you ever felt connected to a place? Well, I do. I feel connected to any place where my mommy is. If I went anywhere like Florida and my mom wasn't with me I would feel homesick. She will always be y my side. If she wasn't with my I don't know what I would do! She bakes for us and she is the best. I know how much I love her and that is important to me. She carried me for nine months. I should be thankful for that. She is the best mom anyone could ask for and that is my reason for feeling connected to my mom.

Brittany Czarnowski

Warm sunsets, sounds of waves hitting rocks, white swans swimming across a glass lake feels like home. Holidays, birthdays, and summers I visit my Yaiyai and Papou at their home in West Harwich, Cape Cod, MA. The reason they make me feel like I'm home is because there is so much love and warth at their house. Each time I go is special.

In the summer there are so many different thngs to do at the Cape. There's an ice cream restaurant called Sunday School. In the summer it's the busiest place. When I eat ice cream anywhere else it just isn't the same.

My Yaiyai is such a good cook. That is one of the best things abot going to the Cape on the holidays. On Christmas, we have a Greek tradition. Yaiyai makes a wheat pita and hides a dime wrapped in aluminum foil in the wheat pita. This is for whom ever finds the dime the person is supposed to have lick all year long! Another Greek tradition that we celebrate is my Yaiyai and Papou hide 20 gold coins around the house. My sister and I are supposed to find all of the coins. It is so much fun to see who can find the most coins.

I really enjoy Cape Cod, it really feels like home to me.

Desarai Melendez

Hey, do you love Brockton as much as I do!!! Well, if not you have been living under a rock! Brockton is where I belong because if I didn't live here I wouldn't have met all of the friends I have now. I would not have been a member of the Huntington School, the best school in the city. I really feel connected to where I live and the Huntington School. I am a peer leader here. I feel safe, happy, and energized in Brockton because at I was born in Brockton at the hospital at 12:00 am. If I moved it would have been terrifying, scary, and timid. If I moved someplace else my family and friends would hopefully miss me and I feel connected because of that.

Desiree Snead

Have you ever been to Massachusetts?
My family lives here. If I move away to
Florida, I would be sad because none of my
family can come to visit because they don't
have must money. I belong in Massachusetts
because I like visiting my grandparents
because I love to play games like battleship
and Uno. To show I love them, every
Christmas Eve I five them a letter saying
that I love them.

Jon Buckley

Where Do You Belong?

Have you ever been to Brockton?
it's a fascinating place because it has
great schools, fascinating people.
Brockton is my special place because
when I moved there I made lots of
friends. I feel like I belong here because
half of my family is in Brockton. My
family loves Brockton because they
moved here many years ago. I love the
environment. It has pure green grass.
Our house is beautiful .

Joshua Fraga

Have you ever been to Florida? Well I have and that is my home. The reason that I feel that I belong there is because I have spent most of my life living in Florida.

Another thing that makes me feel like I belong in Florida is the school. When I am at school it makes me feel that they care for me and my friends. They make me laugh and cheer me up when I am down.

There is another thing that makes me feel that I belong in Florida. It is my neighborhood and my neighbors are really nice. They buy stuff that I am selling for my school and my neighborhood. It looks beautiful and there is a garden in my neighborhood.

The last thing that makes me feel like I belong in Florida is that the warmth warms my skin and it makes me feel welcome.

Those are the reasons why Florida is so important to me. The reasons are my friends, my school, my neighborhood, my neighbors, and the warm welcome.

Juan Carlos Brito

I feel like I belong in England, the country. My family, like my aunt and cousins, live there. They lived in a mansion with my mom, sister, and my older brother. I like England because we had the nicest neighbors ever. They would watch me when my mm went to the store and they would cut our grass for us. They would even bring presents when we were sick of if it was Christmas. I love my community because they never littered. It was always clean and the grass was never too long. No one stole anything from us. That is why I invited them for Christmas parties and Thanksgiving and family reunions. I also love my class because they help me up when I fall and they help me with my work.

Keilya Best

Where Do You Belong?

Have you ever been to Puerto Rico? If you didn't then I don't know where you've been for the past five years, Puerto Rico is my special place. I like Puerto Rico because when I went there I made lots of friends and it's hot in Puerto Rico and I like it hot. Where we lived had a nice view of the ocean. The environment, oh don't even get me started! When we went to Puerto Rico we had flowers given to us by our neighbors. The flowers smelled beautiful. It looked good too. Puerto Rico is my special place, what's yours?

Kyandre Martinez

I feel I belong in Brockton because if I didn't live in Brockton I would never have met all of my friends. I would never be in my favorite school. My family and friends all live in Brockton. If I wasn't in Brockton I would miss the fair and my friends and family that live here. Also, I would miss my favorite teachers. The snow, the cold weather, and the noisy street I will miss. Also, I wouldn't be able to see my family. I belong in Brockton. It is my home. I feel I am connected to it forever and ever.

Michelle Garcia

Where do I belong?

Have you ever gone to Haiti? It's a fascinating place because you can feel the blazing sun in your eyes at the beach. You can go to baseball games and for the children you can go to puppet shows. The sun almost shines everyday and every month. It's the perfect place to go for the best vacation ever. It may be small and extremely sunny but it has kind and honest people there.

I went there to see my grandma and my cousin Thagmar. My grandma and her friends were so happy to see me. When I went there at 6:00 pm, they hugged me until 2:00 in the afternoon. I was sooooo tired. My grandma ssaid "Oh sweet pea, I missed you so!"

I feel like I belong there because half of my family is in Haiti and the other half is in America. Though I seem to find a way to get in though with them and have a wonderful time with both.

The last time I went to Haiti was last summer. It was amazing, fantastic, spectacular. I don't even know how to explain it, but my grandma took me to this mini mart. She bought me candy from the store it was intense. It was huge.

There is no place like Haiti. When I feel homesick and miss my friends and family, there is always a picture to remind me they are in my heart.

Nakanie Alce

Is Brockton Where You Live?

Is Brockton where you live? Well, if you don't, I will tell you why you should.

Brockton is where I am growing up. I have friends and family that I never want to let go! Brockton means a lot to me because everyone in my street is so nice. My dad snow blows almost everyone's driveways with his snow blower.

I could never imagine myself away from who I love. My family is my only support for me when I get honor roll and good citizen. I love them. My friends are always there for me. They make me happy when I am sad. My friend Shaila is my best friend in the world. Brockton is the place to be!

Sarah Butler

I feel like I belong in Brockton, Ma because this is my hometown. Believe me, I have lots of people from my family here. I love everything about Brockton. I know how to get around the place well. Some places I haven't been to yet here in Brockton. Guess what my grandma and my great grandma live in Brockton. My great grandma is in a nursing home called Saint Joseph's. She has been there for about two years now. Plus, if I never had lived here, I would not be able to visit her. The school that I am in has a lot of kind people there. Just like Sarah, Keilya, Desiree, and my teacher Miss O'Brien. I love going to the Westgate Mall with my aunt. They have many stores in it. My favorite place in the mall is K.B. Toys. My favorite thing about Brockton is there are many places to go. Every summer I love to go to the Brockton Fair. The challenge for me is to go on the boat. It is so so scary. But the most important thing I love about Brockton is that it is a loving place.

Shaila Burgos

I feel like I belong in Brockton. The reason why I feel like I belong in Brockton is because I have friends and family here. I like to go over to my cousin's house. We like to play on his computer, his backyard, and his Play station 2. My family and friends help and support me, that's one of the reasons why I belong in Brockton. For example, my teacher helps me learn.

Travon Lewis Fernandes

Is your favorite place your grandmother's house? Well mine is. I lived there until I was four and a half years old. I had a good time living with three dogs, two cats, a fish, my aunt, my uncle, my grandmother, and my mom. I still remember some of the good times I had. Like once, I kept on forcing my aunt to play hide-n-seek and tag. We were so tired we went to take a really long nap. I took walks with 3 of the dogs. Once I took a ride on one of the dogs down the stairs. I stopped riding the dog because I fell and hit my head against the wall. These memories make my grandmother's house a special place.

Victoria Dower

My special place in the world is Cape Verde. I go there to see the rest of my family. Did you know that it takes 3,500 miles to Cape Verde. When I go to see the volcano it reminds me of Cape Verde. Seeing my friends everyday makes my day. We play together all day long. But when we have to eat we eat rice, bean, and fish. When it is night time we go to watch t.v. at my house. When it is done we go outside and walk. But, when I get to sleep, my cousin helps me. We put out pajamas on, then we go to sleep. When the sun is up we brush our teeth, take a bath, and we get dressed. When we are done, we eat eggs. In the daytime we leave to go back to Massachusetts. I can still remember Cape Verde.
